Connecting Back to the Source

EXPRESS YOUR APPRECIATION

APIOHSM is a company dedicated to creating recognition systems so organizations can provide their history for the future generations and show their appreciation for the founders who helped make their existence a reality.

Our goal is to help organizations and their patrons appreciate the efforts of their predecessors, the contributions of those pioneers that we sometimes take for granted, and to impart those sentiments to others. Every organization began somewhere through someone's efforts. Make sure the successors know what it took to get to where they are now.

FEATURES

Preserve The History of the Foundation

APIOHSM provides organizations with the ability to store and present their history and include substance and visual content when they share their beginnings.

Preserve The History of the Founders

Store and present the history of the organization's founding families and those that have continued to contribute along the way. Showcase those that contributed funding, time, and ingenuity. Emphasize the leaders who worked tirelessly to see that the dreams of yesterday became the reality of today.

Where Are They Now

Continue to build the story of the organization and its originators. Update the advances and growth as it develops over time. Add new family members. Fill in new information and present new photos demonstrating the changing times.

Share Their Story Within Your Organization and Through Your Web Site

Because APIOH is web based, you can share stored content to be accessed on an APIOH ViewSM screen within your organization. Information can also be attached to your website to share with your members around the world. Visitors can search for an individual or family with APIOH's easy search functionality.

Easy to Operate and Maintain

Each organization has full control to edit and update their own information from any internet connected computer. Members can also submit for approval additional information through their own web interface.

Acknowledge their foresight.

APIOH – A Place In Our Hearts has developed a unique web based product that provides institutions the ability to highlight the origins of their organization and their founding families.

Follow the organization from its inception through the present. Go through the organizational changes — facility changes, structural changes both physical and ideological, changes in function and philosophy, in leadership, in status and more.

APIOH for our Foundations & Founders also acknowledges the founders that impacted the organization's growth along the way. The families who gave of themselves to pave the way for the organization of today. Reflect on their family composition and their organizational contributions.

APIOH for our Foundations & Founders also allows for family biographies and photo albums to share the memories of the initial days to be appreciated years later. Your members will enjoy sharing the stories and photos of those earlier years. Let the stories of our beginnings continue to occupy...
